SuiAuditWarp

AI-Powered Smart Contract Audits for Move, Secured On-Chain with Sui + Cross-Chain Access via Wormhole

By: sr18z

🎯 Sui • 🤖 AI • 🔍 Audit • 🖼️ NFT • 📦 IPFS • 🚀 Cross-Chain

The Problem

🚀 Over $11.25B lost to DeFi hacks over the years

🚀 Move devs lack accessible, reliable audit tools

🚀 Manual audits are slow, costly, and non-scalable

🚀 No cross-chain audit support for Move

🚀 No on-chain proof or audit ownership

Who's Affected

🚀 Sui devs launching dApps or NFTs

🚀 DeFi builders using Move

🚀 Multi-chain devs curious about Move

🚀 Users relying on unaudited contracts = 🚨 risk

Why Now

🚀 Sui + Move gaining rapid adoption

🚀 Demand for faster, cheaper security tools

🚀 Cross-chain infra like WormHole is production-ready

🚀 AI adoption is booming in Web3 security

Our Solution

SuiAuditWarp = AI + Proof + Cross-chain UX

🚀 AI audits Move code instantly

🚀 Generates and uploads PDF reports to IPFS

🚀 Mints proof-of-audit NFTs on Sui

🚀 Enables access & payments cross-chain via WormHole

🚀 No Sui expertise required to audit or interact

"Where Move Meets AI, and Chains Connect."

How It Works

🚀 **Frontend:** Tailwind, Radix UI, React, Viem

🚀 **AI Engine:** OpenAI / Google Gemini (LLM-pluggable)

🚀 **Storage:** PDF → IPFS via Pinata or Walrus

🚀 **Proof:** Sui NFT minted with audit metadata + IPFS hash

🚀 **Cross-chain:** Wormhole SDK (Sui ↔ EVM)

🚀 **Code Support:** Move Analyzer for Sui smart contracts

🚀 **Wallets:** Sui (Dapp-kit), EVM (ConnectKit-Ethers)

"Your Move Spells, Audited & Anchored."

Who It's For

🚀 Move/Sui developers

🚀 Web3 security teams

🚀 Cross-chain builders

🚀 Hackathon teams, DAOs, NFT creators

"Securing Your Mint. Across Chains. At Optic Speed."

Market Potential

🚀 $128.6B+ locked in DeFi protocols

🚀 TThousands of unaudited contracts monthly

🚀 Nascent but fast-growing Move tooling ecosystem

🚀 Strong developer demand for simple, powerful audit UX

Why It's Unique

🚀 First AI-powered audit tool built specifically for Move

🚀 Immutable audit proof via IPFS + NFT

🚀 Seamless EVM ↔ Sui cross-chain support via Wormhole

🚀 AI engine is pluggable with multiple LLMs (OpenAI, Gemini, etc.)

🚀 No Sui learning curve for external users

"AI-Powered, WormHole-Fueled, Move-Approved."

Traction

🚀 MVP live

🚀 Styled UI with wallet integration

🚀 Audit → PDF → IPFS → NFT flow complete

🚀 Wormhole integration enables Sui ↔ EVM interactions

🚀 Move Analyzer integrated for code compiling assistance

🚀 Post-hackathon ready for early users

Growth & Monetization

🚀 Pay-per-audit model

🚀 Tokenized credit system

🚀 Accepts EVM/Sui native tokens)

🚀 SDK in development for integration

🚀 Public dashboard of verified audits coming soon

🚀 Future: Multi-agent AI audit consensus (voting mechanism)
